LAB CONFIRMED COVID-19 on presentation to ED				
Level of Care	Bed Placement	PPE required for patient transport	Directions to bed	PPE required for Direct Patient Care
CCU	2nd floor old CCU [231, 232, 233, 234]	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>Staff:</i> Ear loop or blue cone mask	ER → hallway → elevator → MSU2 → through door by annex (see bed placement)	N95 or PAPR Gown (blue) Eye protection Gloves
Stepdown	MSU2 [213, 214, 215] Patients CAN be cohorted		ER → hallway → Elevator → MSU2 (see bed placement)	
Floor	MSU2 [start filling from 202 → 210] Patients CAN be cohorted		ER → Hallway → Elevator → MSU2 (see bed placement)	
Post-surgical	<i>For critical patients:</i> 2nd Floor CCU <i>Non-critical patients:</i> MSU2 [start filling 202 → 210]		OR 5 → Elevator → MSU2 (see bed placement)	
OB (gestation >20 weeks)	From ED directly to L&D [345]		ER → Hallway → Elevator → Negative Pressure Room in Labor and Delivery [Room 345]	
Emergency Surgery	From ED directly to OR (Pre and Post op performed in OR)	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>OR Staff:</i> Ear loop or blue cone mask	ER → Hallway → Elevator → OR 5	N95 or PAPR appropriate surgical attire
Non-emergent surgery	MSU2 to OR (see post-surgical for new bed placement)		MSU2/Annex/2 nd floor CCU → Hallway → Elevator → OR 5	

PUI Identified in ED				
Level of Care	Bed Placement	PPE required for patient transport	Directions to bed	PPE required for Direct Patient Care
CCU	2nd floor Annex [5&6]	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>Staff:</i> Ear loop or blue cone mask	ER → hallway → elevator → MSU2 → through door by annex → 2 nd floor Annex [5&6]	N95 or PAPR Gown (blue) Eye protection Gloves
Floor	MSU2 [start filling from 210 → 202]		ER → Hallway → Elevator → MSU2 (see bed placement)	
Post-surgical	<i>For critical patients:</i> 2nd Floor Annex [5&6] <i>Non-critical patients:</i> MSU2 [start filling 210 → 202]		OR 5 → Elevator → MSU2 (see bed placement)	
OB (gestation >20 weeks)	From ED directly to L&D [345]		ER → Hallway → Elevator → Negative Pressure Room in Labor and Delivery [Room 345]	
Emergency Surgery	From ED directly to OR (Pre and Post op performed in OR)	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>OR Staff:</i> Ear loop or blue cone mask	ER → Hallway → Elevator → OR 5	N95 or PAPR appropriate surgical attire
Non-emergent surgery	MSU2 to OR (see post-surgical for new bed placement)		MSU2/Annex/2 nd floor CCU → Hallway → Elevator → OR 5

PUI Identified on a 3rd Floor CCU/MSU3/4th Floor				
Level of Care	Bed Placement	PPE required for patient transport	Directions to bed	PPE required for Direct Patient Care
CCU	2nd floor Annex [5&6]	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>Staff:</i> Ear loop or blue cone mask	Patient room → elevator → hallway → MSU2 (see bed placement)	N95 or PAPR Gown (blue) Eye protection Gloves
Floor	MSU2 [start filling from 210 → 202]		Patient room → elevator → hallway → MSU2 (see bed placement)	
Emergency Surgery	From floor directly to OR (Pre and Post op performed in OR)	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>OR Staff:</i> Ear loop or blue cone mask	Patient room → Hallway → Elevator → OR 5	N95 or PAPR appropriate surgical attire
Non-emergent surgery	From floor to OR (see post-surgical for new bed placement)		Patient room → Hallway → Elevator → OR 5	

All Other Patients					
Level of Care	Bed Placement consider appropriate Non-COVID19 isolation precautions	PPE required for patient transport	Directions to bed	PPE required for Direct Patient Care	
CCU	3rd Floor CCU	Appropriate PPE per Isolation Precaution recommendations: Droplet Enhanced Droplet Contact Contact Plus	ER → hallway → elevator → MSU3 → CCU	Appropriate PPE per Isolation Precaution recommendations: Droplet Enhanced Droplet Contact Contact Plus	
Floor	MSU3		ER → Hallway → Dirty Elevator → MSU3 → place in med/surg bed		
Post-surgical	<i>For critical patients:</i> 3rd Floor CCU <i>Non-critical patients:</i> 4th Floor		OR → Elevator → Med/surg bed (see bed placement)		
OB (gestation >20 weeks)	From floor directly to L&D does not need negative pressure		ER → Hallway → Elevator → Labor and Delivery		
Emergency Surgery	From ED directly to OR (Pre and Post op performed in OR)		ER → Hallway → Elevator → OR		Appropriate surgical attire
Non-emergent surgery	MSU3 directly to OR (see post-surgical for new bed placement)		ER → Hallway → Elevator → Med/Surge Room (see post-surgical bed placement)		

Pediatric LAB CONFIRMED COVID-19 on presentation to ED				
Level of Care	Bed Placement	PPE required for patient transport	Directions to bed	PPE required for Direct Patient Care
CCU	<i>Transfer</i> If patient cannot be transferred: 2nd floor old CCU [231, 232, 233, 234]	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>Staff:</i> Ear loop or blue cone mask	ER → hallway → elevator → MSU2 → through door by annex (see bed placement)	N95 or PAPR Gown (blue) Eye protection Gloves
Floor	<i>Transfer</i> If patient cannot be transferred: MSU2 [start filling from 202 → 210]		ER → Hallway → Elevator → MSU2 (see bed placement)	
Post-surgical	<i>For critical patients:</i> 2nd Floor CCU <i>Non-critical patients:</i> MSU2 [start filling from 202 → 210]		OR → Elevator → MSU2 (see bed placement)	
Emergency Surgery	<i>Transfer</i> If patient cannot be transferred: From ED directly to OR (Pre and Post op performed in OR)	<i>Patient:</i> Ear loop or blue cone mask + clean sheet <i>OR Staff:</i> Ear loop or blue cone mask	ER → Hallway → Elevator → OR 5	N95 or PAPR appropriate surgical attire
Non-emergent surgery	MSU2 to OR (see post-surgical for new bed placement)		ER → Hallway → Elevator → MSU2 (see bed placement) → hallway → elevator → OR 5
